Vote of Thanks

An ignited mind is the most powerful weapon on the earth, above the earth and under the earth; and this is got through education.

Education is the most profitable investment for the near future.

A very good afternoon to everyone present here. On behalf of the Kyoto group of the JENESYS Batch 3-2012, I, Hanumitha Radhakrishnan from Pondicherry, deem it a great honour and privilege to stand before you to deliver the vote of thanks. At first, I would like to thank the JICE and Japan government for arranging such a useful programme of cultural exchange. I would also like to thank the Indian government for giving us the opportunity to be the student ambassadors. It’s obviously a life-time cherishable opportunity which cannot be forgotten by any one of us.

Japan, as everyone knows, is widely known for its fast technological development, hard working people and culture. Though it had been almost completely devastated, now it stands as one of the most developed nations. Even though years have passed, changes have been made in lifestyle, Japanese culture still remains preserve which is really worth appreciating.

The lecture which was giving by the professors of Doshisha University was an interesting and inspiring one. Words are not sufficient to thank the university students and professors for spending their valuable time for a beneficial cause. The interaction with the students was really outstanding. The hospitality provided here is worth appreciating. I hope that many students here will join the university very soon.
