II. Procedures in the event of an accident

1. Process flow of an accident

2. Procedures in the event of an accident

- (1) In the event of an accident that may be covered under this insurance, the student shall contact the school insurance desk of Tokio Marine & Nichido at ☎ 0120-868-066 (toll-free) without delay and report the details on the following page
- Your name, age, and school enrolled at
 - Time and date of accident
 - Place of accident
 - Injured party's name and age
 - Cause of accident
 - Extent of damages (injury or damage)

Please report accidents that occur away from Japan as well. The student may use a collect call in this event. A representative within Japan may report the accident instead if the student cannot make the call.

Please note that a delay in reporting the above may result in the reduction of claims payable, and the right to request claims is bound by the statute of limitations of three (3) years.

Please inform your school of the accident and the fact of having contacted and reported the above information to the insurance company. Out-of-court settlements with the injured party shall be conducted by the person at fault, the student (with a guardian in the case the student is a minor).

- (2) Students shall receive the designated forms indicated below from the school, fill out the required items, and get any necessary certification documents.
- ① Insurance claim document (also considered as a certificate documenting the accident)

Information on the payment of the insurance benefit related to the accident shall be shared by the underwriting insurance company, the school and the Association.

※ The amount of damages shall be determined by taking into account the fault ratio of the injured party and other persons involved. Negotiations for out-of-court settlement shall be made between the injured and the person at fault (insured) directly; however, **please consult the insurance company before settlement** as it is often not the case the insured is solely responsible, and is often the case that the injured also bears fault or an accidental force was present.

<Out-of-court settlement services>

Out-of-court settlement services are not available. This insurance does not offer settlement negotiation services as an insurance company between the insured and parties who sustained injury or damage. In the occurrence, therefore, of an accident liable under this insurance, be aware that you must conduct out-of-court negotiations directly with the injured party, upon advice from the department/ section in charge at the underwriting insurance company. Moreover, please note that the admission of your liability or any agreement to the amount of damages given without approval from the underwriting insurance company may lead to the failure to receive the claim either in whole or in part.

<Cautions upon filing for claims>

In personal liability insurance the injured party in an insured event who has the right to request damages against the insured has a lien on the insured's right to request the underwriting insurance company to pay insurance claims (excluding the right concerning insurance claims for expenses) (Paragraph 1 of Article 22 of the Insurance Law). "A lien" means the victim's right to receive compensation for the victim's credits out of the insurance benefits prior to all other creditors. The insured may request the underwriting insurance company to pay claims to the extent of compensation made to victims or of the amount agreed by the injured party (Paragraph 2 of Article 22 of the Insurance Law).

For the above reasons, the amount of insurance claims which the underwriting insurance company may pay upon request from the insured shall be limited to the cases of ① to ③ mentioned below, with the exception of insurance claims for expenses.

- ① The insured has already settled compensation for damages to the injured party;
- ② The victim can confirm agreement given by the underwriting insurance company for the payment of insurance claims to the insured; or
- ③ Under instruction from the insured, the underwriting insurance company makes the payment of insurance claims directly to the injured party.

<Cases of concurrent insurance contracts>

Insurance claims shall be paid in the following manner in cases where concurrent insurance contracts or mutual aid contracts exist which duplicate in content with this insurance contract (hereinafter as "other insurance contracts").

- ① In cases where insurance claims or mutual aid benefits have not been paid by other insurance contracts:
The payment of claims shall be made in accordance with the enrollment details of this insurance contract, regardless of other insurance contracts, etc.
- ② In cases where insurance claims or mutual aid benefits have been paid by other insurance contracts: The payment of claims shall be made in accordance with the enrollment details of this insurance contract with respect to the amount of damages after subtracting any insurance claims or mutual aid benefits paid by other insurance contracts.
