Founder:
Joseph Hardy Neesima

Founding Spirit and Joseph Hardy Neesima

Neesima learned the Christian conceptions of conscience and liberty during his stay in America. Upon returning to Japan and establishing Doshisha, he defined them as the Doshisha spirit.

146 years ago, Joseph Hardy Neesima broke new ground in Japanese education and sowed the seeds of liberal learning in people's mind, which have been passed down over generations. Neesima's vision formed the basis of Doshisha, and has always been present as Doshisha has evolved.

Joseph Hardy Neesima was born as a son of a samurai in 1843, and studied hard to become both a good warrior and a good scholar. Gradually gaining awareness about Western culture and Christianity, he had a serious concern about the future of Japan and realized the importance of studying in Western countries. Neesima left Japan for America in 1864, defying an overseas travel ban. Filled with anxiety and hope, he had begun his adventure. In Shanghai, he boarded a ship, the Wild Rover, bound for Boston.

Under the benevolent support of A. Hardy, the owner of the Wild Rover, Neesima received baptism and studied at Phillips Academy and Amherst College. As he learned advanced Western science and technology and blended into American life, he realized that there was a deep-rooted spiritual background of Christianity in America. He decided to become a minister himself, entering a seminary after graduating from college. The eight years of study at Christian educational institutions in America taught him the importance of conscience and liberty based on Christianity, which is to live according to the will of God and to exercise the freedom only within the realm of the conscience. Neesima returned to his homeland after ten years with a strong ambition to establish a Christian university as well as to spread Christianity.

Faculties

Graduate Schools

More Information on Faculties and Departments

Imadegawa Campus		
Faculties	Characteristics	Career Options
School of Theology	<ol style="list-style-type: none"> Offering one of the world's leading educational environments where three monotheistic religions—Christianity, Islam and Judaism—are taught Developing students into globally competent individuals who will contribute to the "coexistence of civilizations" 	<ul style="list-style-type: none"> Education and social welfare Ministers and pastors Major enterprises (manufacturing, finance, service, trading, etc.) International organizations National and local government employees Advance to graduate school
Faculty of Letters	<ol style="list-style-type: none"> Offering students hands-on learning opportunities, enabling them to learn authentic Japanese culture in Kyoto, where traditional Japanese culture is still very much alive Providing specialized education in small groups along with general and interdisciplinary liberal arts education 	<ul style="list-style-type: none"> Education and social welfare Major enterprises (finance, publishing, service, etc.) National and local government employees Museum curators Librarians Advance to graduate school
Faculty of Social Studies	<ol style="list-style-type: none"> Students will conduct a theoretical study on social phenomena with a focus on the relationship between people and society. Providing practical education emphasizing first-hand experiences with many fieldwork and training opportunities 	<ul style="list-style-type: none"> Education and social welfare National and local government employees Think tanks Major enterprises (mass media, service, banking, insurance, securities, etc.)
Faculty of Law	<ol style="list-style-type: none"> Offering practical education that is relevant to students' future professional career goals, including positions at corporate legal departments, journalist positions, etc. Providing advanced specialized education in collaboration with the graduate school 	<ul style="list-style-type: none"> Lawyers, judges and prosecutors National and local government employees Journalists Major enterprises (finance, distribution, manufacturing, etc.)
Faculty of Economics	<ol style="list-style-type: none"> Deepening students' understanding of economics and developing their logical thinking and policymaking skills Providing excellent education on history, culture, philosophy, regional issues, environment and information technology to develop students into competent individuals who can play an active role in the real world 	<ul style="list-style-type: none"> Major enterprises (finance, manufacturing, distribution, mass media, etc.) Think tanks and consulting firms National and local government employees Certified public accountants and certified public tax accountants
Faculty of Commerce	<ol style="list-style-type: none"> The number of applicants from the Faculty who have passed the CPA and CPTA examinations and other professional certification exams ranks at the highest level in Japan. Offering practical courses taught by business people from various fields 	<ul style="list-style-type: none"> Certified public accountants and certified public tax accountants Major enterprises (banking, insurance, securities, manufacturing, distribution, etc.) Business entrepreneurs National and local government employees
Faculty of Policy Studies	<ol style="list-style-type: none"> Developing students' skills to identify and solve problems on their own Offering specialized education that enables students to learn about policy issues from a multilateral perspective 	<ul style="list-style-type: none"> Major enterprises (planning, international and personnel departments, etc.) National and local government employees NPOs and NGOs International organizations
Faculty of Global and Regional Studies	<ol style="list-style-type: none"> Developing students into competent individuals who can adopt a global perspective when tackling diverse issues relating to the social and cultural characteristics of different regions and worldwide problems Students will take one of the three courses—European Studies, Asia-Pacific Studies or Americas Studies—to acquire proficiency in the use of the language of the particular region. 	<ul style="list-style-type: none"> Companies expanding overseas (manufacturing, trading, travel, mass media, etc.) National and local government employees International public service (airports and airlines) Advanced to graduate school inside and outside Japan

Kyotanabe Campus		
Faculties	Characteristics	Career Options
Faculty of Culture and Information Science	<ol style="list-style-type: none"> Developing the ability of students to analyze "culture," a product of human actions, and helping them to gain a new perspective on it Enabling students to acquire excellent skills to analyze and make effective use of information 	<ul style="list-style-type: none"> Major enterprises (information analysis at banks, trading companies, etc.) System engineers Think tanks Museum curators Advance to graduate school
Faculty of Science and Engineering	<ol style="list-style-type: none"> Providing thorough education on the fundamentals of science and engineering to prepare students for future technological innovation Equipped with world-leading experimental facilities, with more than 50 percent of its students going on to graduate school 	<ul style="list-style-type: none"> Major enterprises (technology and research departments at companies in the fields of communications, electronics components, semiconductors, machinery, electricity, automobiles and chemicals, etc.) Advance to graduate school International organizations National and local government employees
Faculty of Life and Medical Sciences	<ol style="list-style-type: none"> Developing engineers and researchers who will be key players in advanced scientific fields in the integrated area of engineering and medical sciences Providing multidisciplinary educational and research programs covering engineering, medicine, basic biology and other fields 	<ul style="list-style-type: none"> Major enterprises (medical equipment, automotive, machinery, electricity, electronics, pharmaceuticals, information & communications, chemicals, etc.) Advance to graduate school R&D jobs at private companies and public research institutes Education and social welfare
Faculty of Health and Sports Science	<ol style="list-style-type: none"> Developing competent individuals who can help improve people's health and enhance the role of sports in society Providing an excellent research environment in collaboration with research and medical institutes both inside and outside the University 	<ul style="list-style-type: none"> Major enterprises (medical, healthcare, food, sports-related, etc.) Health & physical education teachers at junior and senior high schools Local government employees involved in promoting sports Professional sports management Advance to graduate school
Faculty of Psychology	<ol style="list-style-type: none"> Providing well-organized and highly specialized education through three courses Offering a small class environment, a long-held tradition of education at the Faculty, to maximize each student's learning from each experiment and training session and developing students' practical problem-solving skills through project-based learning, which covers real-world issues 	<ul style="list-style-type: none"> Major enterprises (manufacturing, service, finance, trading and mass media) Education, medical care and social welfare National and local government employees Advance to graduate school
Faculty of Global Communications	<ol style="list-style-type: none"> Enabling students to acquire excellent foreign language skills and requiring them to study abroad for a year (English Course and Chinese Course) Developing students into competent individuals who will be key players in the global community as facilitators, negotiators and administrators 	<ul style="list-style-type: none"> Major enterprises (manufacturing, information & communications, distribution, airlines, travel companies, etc.) National and local government employees International organizations Advance to graduate school

Education

General and Liberal Education

<https://www.doshisha.ac.jp/en/education/center/cgle.html>

General and Liberal Education offers broad-based subjects for general education common to all students across all faculties, which materializes at the present time the founding spirit of "education of conscience" based on the three elements of Doshisha's educational philosophy: Christian principles, liberalism (Spirit of autonomy and independence) and internationalism, while maintaining the tradition of the university's liberal arts education. General and Liberal Education consists of three subject groups and several individual subjects. 'Doshisha Studies Subject Group' allows students to learn about Doshisha's founding spirit, Joseph Hardy Neesima and Christianity; 'Career Development Support Subject Group' helps students in personal development and career formation; and 'International Liberal Arts Subject Group' helps students develop cross-cultural understanding and become proficient in foreign languages. In each subject group, relevant subjects are organized in an accessible manner so that students can study them systematically. Also, constituting General and Liberal Education are individual subjects with each given a specific subject name where all subjects of General and Liberal Education are aggregated according to characteristics and field.

Neesima School of Leadership Training

<https://next.doshisha.ac.jp/neesima/about/message.html>

In academic year 2019, we established the Neesima School of Leadership Training (Neesima School) as a new educational program to develop human resources who are infused with a conscience and can navigate an uncharted future boldly and lead the next generation. Neesima School is a two-year program which faculty students may take commencing in their second year, with enrollees selected while in their first year. Irrespective of changes in the times, the maintenance of a rich society full of diversity and tolerance requires people who can sympathize with others and listen to them seriously so that they can lead individuals and organizations in the best direction possible from a comprehensive perspective. Upholding the concept of learning to appreciate the value of reading books, engaging in discussions with friends and teachers, and working in collaboration with their peers, the Neesima School aims to develop human resources who are equipped with not only specialist knowledge but also multi-disciplinary knowledge transcending the boundary between humanities and sciences, and who can assume both leadership and followership roles.

Features	
POINT 1	Neesima School's Original Program The school provides an original program dedicated to the school's students. Divided into small groups, the students attend lectures, prepare reports, and engage in discussions and group work. They study in friendly rivalry with one another.
POINT 2	Basic Training Fully Develop Student's Potentials As a basic training to elicit and further develop the capabilities of students with high motivation for learning, the students work on many assignments under the demanding instruction of their instructors in charge.
POINT 3	Learning Directly from Leaders in Various Fields In "Learning from Leaders to Develop Your Virtue" (a compulsory course), leaders from various fields are invited so that students can directly learn from them about their philosophies and criteria.

Learning Commons

<https://ryoshinkan-lc.doshisha.ac.jp/en/>

The Learning Commons is a place that creates new possibilities by encouraging active learning where students encounter various people, things, events and information, discuss topics with their peers, and develop various activities. While the Learning Commons at Imadegawa Campus is located on the second and third floors of Ryoshinkan, the one at Kyanabe Campus is situated on the first floor of the Learned Memorial Library. Each of the facilities comprises two areas: Creative Commons, a venue for interaction and mutual inspiration; and Research Commons, designed to develop academic skills for thinking on one's own and transforming ideas into reality. Full of open, flexible spaces with no inner partitions, allow changes to the layout of desks and chairs in line with wide variety of needs. Dedicated staff members and state-of-the-art equipment are also available there to support students' learning. The facilities are also used as venues for joint events where both campuses are connected via video live-stream, and other events in which participants can make presentations and have discussions in a bi-directional way.

Research

Organization for Research Initiatives and Development

The Organization for Research Initiatives and Development comprehensively promotes the university's distinctive research activities by education and research bases and support offices. Education and research bases consist of distinguished education and research bases called "Base for Advanced Education and Research", "Research Centers" that promote creative research activities and conduct various collaborative projects, and "Endowed Education Research Project" funded by donations from companies and aiming for developing industry-government-academia collaborative research. Support offices consist of "Division of Research Initiatives" that supports academic research activities as well as considers and proposes research strategies, "University Industry Liaison Office" that acts as a contact point for facilitating collaboration with society, and "Intellectual Property Center" that applies the university's research results to society. These are actively engaged in the acquisition of competitive research funds and the utilization of research results for the enrichment of the university's education, as well as for the benefit of society.

Number of Base for Advanced Education and Research **6**

- Center for Interdisciplinary Study of Monotheistic Religions (CISMOR)
- Institute for Technology, Enterprise and Competitiveness (ITEC)
- Research Center for Energy Conversion System
- Life Risk Research Center
- Doshisha Research Project for Active Life in Space Engineering and Medical Biology
- Doshisha-Daikin Next Environment Research Center

Number of Research Centers **57** As of May 1, 2022

MEXT Joint Usage/Research Center|Center for Baby Science

<https://akachan.doshisha.ac.jp/english/>

The Center for Baby Science aims to pursue a fundamental study that clarifies the developmental mechanism of a baby's cognitive behaviors and social nature by theories of baby science that involves pediatric neurology, cognitive developmental psychology and information science. It also seeks to utilize the research outcomes for child-rearing, childcare and education. The center has been selected by MEXT's Joint Usage/Research Center program as a research base for baby science since 2016, and is promoting a joint usage and research project in collaboration with other universities and research institutions, etc.

Institute for Advanced Research and Education

<https://next.doshisha.ac.jp/>

In its continuing efforts to develop and implement the university's graduate school education programs, the Institute for Advanced Research and Education established the Advanced Liberal Arts Subject Group in academic year 2021 as a new graduate school education program. The Institute aims to allow graduate students to develop multidisciplinary perspectives, flexibility and creativity, thereby promoting their autonomous career development and qualitatively improving the graduate school education provided at Doshisha University.

University-Industry Collaboration

Trend of acquisition of competitive funding

Trend of industry-academic collaborative funding

Trends of numbers of patent applications and licence fee revenue

Supporting Students' Life

In accordance with Joseph Hardy Neesima's words, "Value and respect your students" and "Cultivate students' individuality", the university offers comprehensive student support services to assist and support students' individual life and growth.

Support Student Life

- Introduction to part-time job
- Introduction to boarding house
- Disaster and accident insurance for student

All kinds of consultations

- Student life
- Disability and Mental Health
- Gender diversity, sexual orientation and gender identity

Volunteer Support

- Providing information on volunteering
- Consultation on volunteering, and introduction of voluntary work
- Various programs

Website for Extracurricular Activities: D-Live

This website features information on a wide range of activities, including student clubs and circles, as well as news about other events such as movies, research presentations, and seminars. There are also tips on self-improvement and how to get the most out of student life, with the topics of internship and cross-cultural experience covered. Information on special talks and interviews is also posted on the site.

Extracurricular activity groups (officially approved)

Varsity Sports Teams	51 clubs	
Sports group	24 clubs	Total 164 clubs
Cultural group	89 clubs	

List of the extracurricular activity groups (officially approved)

- Varsity Sports Teams
51 clubs including: American football, Archery, Horse riding, Canoeing, Karate, Baseball, Fencing, Rugby, Swimming, Bicycle race, Soccer, Boxing, Archery, Alpine etc.
- Sports group
24 groups including: Futsal Club, Table Tennis Circle, Tennis Circle, Golf Circle, Hiking Circle, Professional wrestling, etc.
- Cultural group
89 groups including: Historic Sites Circle, Astronomy Circle, Tea Ceremony Circle, Carta Club, Railways Fan Club, Light Music Club, Glee Club, Advertising Researchers Circle, etc.

Scholarships

1. Doshisha University Graduate School Scholarship (Reference : Scholarship details for students who entered in 2022)

This program aims to support students enrolled in Master's, Doctoral or Intergrated Doctoral Degree programs who are experiencing difficulty meeting educational costs to continue their academic research activities.

Eligible Applicants: Graduate students (Regular Students)

*Students in a professional degree program (Law school and Business School) can not apply.

Duration of scholarship: One year

Amount of scholarship: An amount equal to one half the total annual tuition

2. Doshisha University Undergraduate Awards for Distinction

Eligible Applicants: Regular Students enrolled in undergraduate programs

Duration of scholarship: One year

Amount of scholarship: 300,000 yen (awarded to 100 students across all Faculties)

3. Doshisha University Merit Scholarship for Self-Funded International Students (for Students enrolled in and after the Academic Year 2022)

*The Admission fee, the Facilities fee, the Laboratory fee, and the Academic association fee are not included.

[Graduate Students]

Amount of Scholarship/Number of Recipients:

Equivalent to full amount of tuition / approximately 20 to 30% of international students

Equivalent to 50% of tuition/ approximately 30 to 40% of international students

Equivalent to 30% of tuition/ approximately 40% of international students

[Undergraduate Students]

The number of recipients varies in accordance with each Faculty and Course.

- School of Theology, Faculty of Letters, Faculty of Social Studies, Faculty of Law, Faculty of Economics, Faculty of Commerce, Faculty of Policy Studies, Faculty of Culture and Information Science, Faculty of Science and Engineering, Faculty of Life and Medical Sciences, Faculty of Health and Sports Science, Faculty of Psychology, Faculty of Global and Regional Studies, Faculty of Global Communication: English Course, Chinese Course

1. Equivalent to full amount of tuition/ approximately 10% of international students
2. Equivalent to 50% of tuition/ approximately 20% of international students
3. Equivalent to 20% of tuition/ approximately 30% of international students

- Faculty of Global Communication, Japanese Course; The Institute for the Liberal Arts

1. Equivalent to full amount of tuition/ approximately 10% of international students
2. Equivalent to 50% of tuition/ approximately 20% of international students
3. Equivalent to 20% of tuition/ approximately 60% of international students

*Please refer to Doshisha's website for more details. <https://ois.doshisha.ac.jp/en/scholarships/merit.html>

4. Scholarship for Students from Developing Countries

Eligible Applicants

Applicants must fulfill the following two conditions:

(1) Those who will obtain "Student" resident status by the "Immigration Control and Refugee Recognition Act" after being admitted to Doshisha University.

(2) Those who reside in one of the countries classified as "Least Developed Countries" or "Low Income Countries which are not LDCs" in the list of ODA Recipients published by OECD/DAC and hold the nationality of one of those countries.

Duration of Scholarship

Two years after admission (The duration of scholarship may be renewed for up to the standard number of years required for graduation).

Amount of Scholarship

(1) 85,000 yen per month

(2) Full amount of university fees (including the admission fee, tuition, fee for Educational Support, Lab/Practical fees and other fee).

5. Other Doshisha Scholarships

There are also "Doshisha University Endowment Scholarship", "Doshisha University Graduate School Special Scholarship", "Doshisha University Graduate School of Brain Science Special Scholarship" and "Doshisha University Doctoral-Program Young Researcher Scholarship", but these scholarships are awarded on the basis of recommendations from each Faculty and Graduate School, rather than open application.

The university also operates a short-term loan system to assist Regular Students experiencing difficulty in continuing their study in Japan owing to a temporary inability to meet living expenses or other exigent circumstances (such as sudden illness, fire or other disaster).

6. External Scholarships

There are also other scholarships available, as provided by different institutions and foundations.

(e.g.MEXT, JASSO, or regional/public and private organization)

*Please refer to Doshisha's website for more details. <https://ois.doshisha.ac.jp/en/scholarships/univ.html>

Supporting Students' Career Goals

Career Paths after graduation in 2021

*"Employed" includes permanent worker, equivalent to full-time worker with employment contract for one year or more, self-employed, family business, entrepreneur, etc.
 *"Overseas or other schools" includes overseas schools, other faculties, vocational colleges, etc.
 *"Others" refers to part-time employees, undecided, etc.

Employment Rate by type of business in 2021

*Percentages are rounded off to the first decimal place and may not add up to exactly 100%.

Employment Rate by the number of employees in 2021

*Percentages are rounded off to the first decimal place and may not add up to exactly 100%.
 *Miscellaneous educational institutions, NPOs, religious corporations, medical and health-care services, nursing care businesses, and government employees are categorized as 'Public Sector and Others'.

Qualification and certificate courses

License and Qualification Programs

https://license.doshisha.ac.jp/

The Center for License and Qualification provides comprehensive support for the university's programs for acquiring a teacher's license, as well as qualifications for a curator, a librarian and a school librarian. Besides guidance on registration for these programs, the center also offers specialized counselors. A program for training school librarians is also available.

Qualifications acquired in 2021

Teaching license	Curator license	Librarian license	Teacher Librarian license
285	77	59	12

Qualification Examination Seminars and Guidance

A wide variety of seminars are available for students striving to become a judge, prosecutor, lawyer, certified public accountant, licensed tax accountant, small and medium-sized business consultant, etc. To provide support for qualification examinations, the Faculty of Commerce ensures that its regular courses include many courses designed to enable students to prepare for various qualification examinations. In addition, the faculty also offers a wide variety of extracurricular seminars for qualification examinations.

Legal Seminars

The Faculty of Law holds extracurricular seminars administered in cooperation with teaching staff of the Faculty of Law and the Law School, as well as with Doshisha alumni engaged in legal professions. The faculty provides not only information on bar examinations and entrance examinations for the Law School, but also various opportunities useful for students' daily study, such as key-point seminars to prepare answers and court tours.

No. of students who passed the national bar examination ranked by law school

39 students of Doshisha Law School passed the bar exam, ranking the school 9th nationally

Rank	Name of University	No. of students
1	Keio University	125
2	Waseda University	115
3	Kyoto University	114
4	The University of Tokyo	96
5	Chuo University	83
6	Hitotsubashi University	64

International Exchanges

Study Abroad

As of May 1, 2022

No. of students who studied abroad in the Study Abroad Program in 2019: **about 1,300** Partner universities under the inter-university student exchange agreement: **177 universities in 37 countries and regions**

*The Study Abroad Program has resumed on a limited basis from the academic year 2021.

Study Abroad Program

(Short Term) Summer programs-Spring programs
 (Medium Term) Semester programs-EU campus programs
 (Long Term) Overseas Partner Universities Study Abroad Program
 Six- or twelve-month program at an overseas partner university under the inter-university student exchange agreement

Overseas partner universities by region

- North, Central & South America ... **58**
- Europe ... **55**
- Africa - Middle East ... **3**
- Asia ... **49**
- Oceania ... **12**

Study abroad students from overseas

As of May 1, 2022

No. of overseas students studying at Doshisha: **1,144 (from 71 countries and regions)**

International students by nationality

- Korea about **42.0%**
- China about **36.7%**
- Taiwan about **2.4%**
- Germany about **1.9%**
- Vietnam about **1.8%**
- United States of America about **1.7%**

*For details, please refer to pages 14 and 15.

Study Abroad Program Base

There are four research centers belonging to renowned overseas partner universities on the Imadegawa Campus

Each of which has been set up as a research base for Japanese language and Japanese studies. International students from those universities study the centers' individual programs on Japanese language and culture and all enjoy full access to the facilities of Doshisha University.

Stanford Program in Kyoto

The SJC provides a program for undergraduate students of Stanford University wishing to study in Japan. About 50 students from Stanford University take courses on Japanese culture and society.

AKP (Associated Kyoto Program) Kyoto Center

The AKP Kyoto Center at Doshisha University accepts students from 13 AKP consortium colleges and universities that are highly regarded for their liberal arts programs, as well as from other institutions in the United States. The AKP has been promoting its study abroad program in Kyoto since 1972.

Tuebingen University Center for Japanese Studies

The TCJS at Doshisha University is a base for Japanese studies of Tuebingen University in Germany. Since 1993 about 25 students majoring Japanese studies participate in the program each year. The center also organizes public lecture meetings and research exchange events.

Kyoto Consortium for Japanese Studies (KCJS)

Established in 1989, the Kyoto Consortium for Japanese Studies (KCJS) comprises 13 U.S. universities, including Ivy League schools, and operates overseas study programs.

Overseas Offices

Doshisha's overseas bases are located in **5 cities in 5 countries and regions**

As of May 1, 2022

① Taipei, Taiwan ② Seoul, Korea ③ Tuebingen, Germany

Offices established within affiliated universities

④ United States of America - At Amherst College

⑤ United Kingdom - At University of Cambridge

Doshisha Alumni Association

Overseas branches: **36 cities in 24 countries and regions**

As of April 1, 2022

The association is composed of the alumni of Doshisha Elementary School, Doshisha Junior & Senior High School, Doshisha Kori Junior & Senior High School, Doshisha International Junior & Senior High School, Doshisha International Academy Elementary School, Doshisha International School, Kyoto, and Doshisha University. More than 360,000 alumni members of the Doshisha Network worldwide are active in various fields in Japan as well as overseas.

*Domestic branches: 48 As of April 1, 2022

Major Campus Buildings

The Imadegawa Campus boasts a number of Western-style brick buildings, including five national Important Cultural Properties and two Registered Tangible Cultural Properties.

Clark Memorial Hall (Important Cultural Property)
Clark Memorial Hall was constructed in 1893 and opened in 1894 with a special gift of 10,000 dollars from Mr. and Mrs. Clarke, made through the American Board of Commissioners for Foreign Missions. The donation was made under the condition that the name of their son, B.S. Clarke, who passed away at a young age, would be used for the name of the building, and also that a tablet honoring their son would be placed inside the building. Designed by Richard Seel, it is an imposing German Neo-Gothic building with a tall spire that has become a widely recognized symbol of Doshisha. Restoration work on the building took place between 2003 and 2008.

Harris Science Hall (Important Cultural Property)
The original Harris Science Hall (predecessor of the Faculty of Science and Engineering) was constructed in 1890 with a donation of 100,000 dollars from Mr. J. N. Harris made through the American Board of Commissioners for Foreign Missions to establish a higher level of science education institution. This traditional British-style brick building, with an astronomical observatory on the roof, was designed by A. N. Hansel (member of the Royal Institute of British Architects). Following extensive renovations, the building was renamed the Harris Science Hall Doshisha Gallery, offering a wide range of exhibitions to visitors throughout the year.

Doshisha Chapel (Important Cultural Property)
Constructed in 1886, Doshisha Chapel is the oldest brick Protestant chapel existing in Japan. Designed by D.C. Green, this American Gothic chapel has a beautiful steel-sheet gable roof with a steep pitch, while the interior, as with many Protestant churches, is austere and has wood-frame windows with colored glass that resemble stained glass. The chapel is currently used for services, lecture meetings and weddings ceremonies for graduate students, etc.

Shoeikan (Important Cultural Property)
Shoeikan was constructed in 1884 after a donation of 7,500 dollars from the American Board of Commissioners for Foreign Missions. It was designed by D.C. Green, a missionary and teacher at Doshisha, and built by Kikutaro Odaki, a master carpenter. The external appearance is a Western-style brick building, while the internal construction is a traditional Japanese style with Japanese partition walls and roof trusses, etc.

Yushukan (Important Cultural Property)
Considered to be designed by D.C. Green, this brick building was constructed as Doshisha's second library (Shojakukan) in 1887. Since a new library (Keimeikan) was completed in 1920, Shojakukan was renamed Yushukan by the then chancellor Danjo Ebina in 1922.

Amherst House (Registered Tangible Cultural Property)
Amherst House was constructed with the donations of the mother of the first student representative in the Amherst College, S.B. Nichols, and other Amherst College alumni. This New England Georgian architecture was designed by W.M. Vories & Company Architects and resembles one of the Amherst College buildings where Joseph Neesima studied when he was in America. It was once used as a student dormitory, and currently functions as an accommodation facility mainly for long-stay foreign researchers.

Keimeikan (Registered Tangible Cultural Property)
This building was designed by W.M. Vories & Company Architects as Doshisha's second library. The book storage building (the West Building) was constructed using donations from alumni in 1915, and the Main building was built in 1920 using a donation from the alumni, Tadasaburo Yanamoto, which became the symbol of the inauguration of Doshisha University under the new higher education law in 1920. In 1957, a new book storage building (the East Building) was added. Keimeikan is currently used by the Institute for Study of Humanities and Social Sciences, the Doshisha Archives Center and the Physical Plant Division.
