

# Registration for Honors Thesis

Registration for the Honors Thesis requires permission from the student's seminar advisor (ILA faculty member). In particular, **students will be required to submit an Honors Thesis Application Form with their Research Project Proposal at the end of their first Advanced Seminar** in order to be eligible to register for the Honors Thesis in the following semester. This Application Form must be signed and dated by both the student and the student's seminar advisor.

Although the Honors Thesis is an elective course, **students will not be permitted to withdraw from the course** once they have registered for it, similar to required courses, such as seminar courses.

Your seminar advisor will also give you instructions on how to apply for the Honors Thesis course. However, if you do not have a chance to submit your Honors Thesis Application Form for any reason (such as "taking a leave of absence"), please consult with the ILA Office.
